Subject: Partitioning of Wa Cty tax lot 00100 at 10510 SW 155th Ave, Beaverton, Or 97007

City of Beaverton

To Whom It May Concern:

We are writing to express our extreme opposition to the proposed partitioning of this property, which is now a single home, into three separate dwellings. We will be greatly impacted by this project, since our home is directly across the BPA greenspace from it. With the removal of 18 trees, our beautiful view, which currently looks at these trees, will be replaced by the direct visualization of three dwellings. Since noise is already amplified across the greenspace, the loss of the trees plus the addition of two dwellings will only increase our noise pollution. We built our home 19 years ago with the idea of retiring here. Four years into retirement, we are very disheartened at the loss of the natural beauty and serenity that will occur with this proposed development. We strongly urge you to take our, and other neighbor's concerns into consideration when making your final determination.

Sincerely, Linda Hurley and Peter Smiley
10650 SW Oriole Circle
Beaverton, Or
