IRAQ STORY

Iraq has had hard moments since 2003 to this year. I do not know if Iraq continues to have big problems. When the Americans entered Iraq and with the death of former President Saddam Hussein, some people have joy and some people have sadness. My family and I felt joy for security. After three years I felt very sad and regretful because of the abundance of murder and crimes. Many people were murdered, among whom was my uncle and his son. My father and I felt very sad about my uncle and his son. When American intervention came to Iraq, it was a good thing because they opened field work for the people and some Iraqis people bought houses. In 2012 the Americans left Iraq and the days passed. There were many explosions because we had no good government. I lived some beautiful times with my parents and my grandparents and aunts. In 2014, my grandfather died in the same month, which was when we left Iraq to come to America. It saddened all of us and then we came to America on 02/02/2014. We enjoyed the absence of discrimination and we lived very, very beautiful times. I see citizens in America who care about their homeland and this is a very good thing. I love America.

هذه المشكلة الكبيرة سوف تنحل.

عندما دخلوا الامريكان الى العراق وقتلوا

الرييس السابق هوام حسين بعين الناس

فرتهم وبعث الناس شعور بالوحدة فقد كان لي

وانا شعورنا بالفرح لاننا بعد ثلاث سنين

شعرنا بالحزن الشديد لان قتلنا الكويت
